**Concept Designs by volunteer artist Laura Green**

**Concept design – Back wall of the garage at MacArthur Park**

For the garage, the artist chose some commonly seen smaller birds in the area (Phoebe, Towhee and Allens hummingbird) and two butterflies, the monarch and the Quino Checkerspot, which is endangered. The background is kept simple in color bands.

**Concept design – East wall of the Municipal Pool at MacArthur Park**

For the pool wall, the background is simplified so the animals stand out. The artist chose an endangered sea turtle, shovelnose ray and a diving cormorant. The Garibaldi fish are not endangered but seen in the protected marine areas. The kelp is a keystone element.
