

DATE: February 5, 2025

TO: Planning Commission

FROM: Lynnette Santos; Director of Community Development

SUBJECT: 2025 Planning Commission Work Plan

City Commission 2025 Work Plans (2025 Work Plans) will be presented at City Council regular meetings in February. During last year's work plan discussion, the Planning Commission discussed further identifying action-oriented work plan recommendations that would align with the City's long-range vision and policies. Understanding that Commission work plans are intended only to be guidance documents which provide staff direction as workload, resources, and time permit, the Planning Commission discussed the idea of identifying more action-oriented goals for the Planning Commission Work Plan. As part of the 2024 Work Plan goal recommendations, the Planning Commission included the goal of holding a workshop to discuss potential ways that the Planning Commission could assist in advancing City goals with a focus on economic development and housing. This goal and the other goals identified in the 2024 Work Plan have been carried over to the draft 2025 Work Plan (Attachment A).

Staff requests that the Planning Commission review the draft 2025 Work Plan and discuss whether there are other goals that should be included. All work plan goals considered should be consistent with the goals of City of La Mesa Strategic Plan (Attachment B). Further, staff recommends that the Planning Commission identify a date in the upcoming year, during a regularly scheduled Planning Commission meeting, for the workshop to be held.
