Statement

I am a resident in La Mesa, and I formally protest the proposed sewer service rate increase. This increase would place an undue financial burden on residents, especially during a time of rising living costs. There has been insufficient justification and transparency regarding this rate increase. The city should prioritize utilizing alternative funding to cover the sewer service expenses.

Statement

As an owner, I have installed low flow fixtures, water smart landscape, smart irrigation & continued to use less water. My rates will continue to increase for water that does not go down sewer, or get used. This is not right. The city needs to re-think this increase & not penalize conservation.
