### PORTFOLIO COMPLIANCE

The portfolio complies with California code sections concerning safety and liquidity in the investment of public funds. Investment strategies are based on liquidity requirements and interest rate projections and have been collaboratively determined by the City Treasurer, City Manager, and Director of Finance. The City Treasurer executes trades in accordance with these strategies.

#### **Required Contents of Investment Reports**

California Government Code Section 53646(b) suggests that the quarterly investment report of a local agency contain certain items. These items include the type of investment, the issuer's name, the date of maturity of the security, the par amount of the instrument, the market value, and the dollar amount invested in each security. The source of the market value also should be included in the report. The report also must reference all funds that are under the management of external investment providers, such as investment advisors and investment managers. A local government's quarterly report, if submitted, must state the portfolio's compliance with the agency's investment policy or manner in which the portfolio is not in compliance. Finally, the investment report must include a statement regarding the local agency's ability to meet its cash flow needs for the next six months.

Accordingly, I advise you of the following facts in compliance with Government Code Section 53646(b):

- The source of the valuations included herein is U.S. Bank, Saint Paul, MN 55107.
- 2. No funds are under the management of external providers or managers. Investment decisions are made by a consensus of the City Treasurer, City Manager, and Director of Finance.
- 3. The City's portfolio remains in strict compliance with the Investment Policy of the City of La Mesa for FY 2022-2023.
- 4. The City of La Mesa's investment portfolio more than adequately assures the City's ability to meet its cash flow needs during the ensuing six months.
